PRODUCT DESIGN FEATURES

VALUATION

The Fund shall be valued each day that the New York Stock Exchange is open for trading (each, a "Valuation Date"). On each Valuation Date, the Trustee will calculate a net asset value for the Fund based on the values of the Fund's assets and liabilities.

FEES

The annualized Total Fee set forth in the table below includes (i) amounts the Trustee charges directly against Fund assets for the provision of trustee, investment management and administrative services to the Fund, (ii) any amounts the Trustee accrues and pays to third parties for investment management and administrative fees associated with investments in underlying funds, and (iii) if the Fund consistently invests its assets in one or more underlying funds (each such fund being an "Underlying Fund"), any amounts charged directly against the assets of the Underlying Funds for investment management and administrative

services, (iv) ordinary Fund Operating Expenses (defined below) charged to the Fund and (v) adjustments for applicable fee waivers and break points. The Trustee may compensate other service providers, including sub-advisor(s) who provide investment advisory services to the Trustee, from this Total Fee. Also, if applicable to a Fund's Fee Class, a Service Provider Fee is paid to third party providers of financial services to your plan in connection with the servicing of your plan account. Fees are accrued and charged daily against the Fund assets and therefore reflected in the daily net asset value of the Fund.

EXPENSES

Subject to the Fund-Specific information detailed below, a Fund will reimburse the Trustee quarterly and in arrears for any out-of-pocket payments the Trustee makes to third parties on behalf of the Fund for services that relate directly to the operation of the Fund (collectively, "Operating Expenses").
